Re: Albion-Sheridan Township Landfill - Calhoun County

Dear Ben:

We have received the licensing material for the Albion-Sheridan Landfill (Gordon D. Stevick, applicant). However, I do have some reservations about licensing this site.

As I recall, on our previous joint inspection of this facility several violations were in existence and the general appearance of the site left much to be desired.

The inspection report of the facility dated August 24, 1971, by Jerry Dean indicates that liquid waste is being disposed of at the site. As I recall, our inspection survey also indicated that liquid waste was being disposed of at the landfill. Act 87, Public Acts of 1965, prohibits the disposal of liquid waste unless special provisions are made for such disposal through the health department (Regulations under Act 87, R325.1105, Rule 5, Paragraph 10).

Due to the above reservations, I am holding the licensing material for the time being. Would you please give these matters your further consideration and notify me of your recommendations. I will, of course, be happy to accompany you on a visit to the site or participate in any meetings with the applicant upon your request.

Very truly yours,

Fred B. Kellow, Chief  
Section of Solid Waste Management  
Division of Engineering
